

ZELA AVIATION LTD PRESS RELEASE

03rd May 2011

“New Look Website from Zela Aviation
www.zelaaviation.com”

Zela Aviation is pleased to announce the launching of its new look website www.zelaaviation.com tomorrow 4th May 2011 bringing a fresher look and feel to its presence on the world wide web. The new website provides a more comprehensive source of company information and services that it can provide to its client base.

“With the world wide web now being the single most important sales and marketing platform in world today, it was only right to introduce a new look website as Zela Aviation approaches its fifth anniversary” reported the Chairman and Founder, Andreas Christodoulides.

Background Information:

Zela Aviation is the air charter company that puts the client in control. The client makes the decisions about the schedule, the aircraft type, the departure and arrival airport, the seat arrangements, and of course the on-board service.

Founded in 2006 has built its business from satisfied customer referrals. We continue to grow through the recommendations of our existing clientele and this has formed the fundamental basis of how Zela Aviation operates.

We are steadily expanding into new markets as mentioned in our new web-site and new customers put us to the test with even bigger and more ambitious projects.
